

HABILITATE LABS · BRAND KIT

The colour, type and tone that *carry the work.*

A precise system designed for a clinical product: lavender accent on deep navy, two-family type pairing, and a small, intentional rule set. Built from the v4 pitch deck and ready to extend to web, deck and product.

VERSION 1.0

Source · Habilitate Labs Pitch Deck v4 · May 2026

01 .
COLOUR

The *palette.*

Three roles: a lavender accent that does almost all the typographic and emphasis work; a deep navy that holds the whole brand; a small ladder of off-whites for type and lines.

PRIMARY · ACCENT

Habilitate Lavender

HEX	#BBBAFF
RGB	187 · 186 · 255
HSL	241° · 100% · 86%
CMYK	27 · 27 · 0 · 0

The **load-bearing accent**. Use for headlines, key numerals, CTAs, brand glyph, and the one element that should pull the eye on every slide.

ACCENT · ITALIC

Soft Lavender

HEX	#C5C2FF
RGB	197 · 194 · 255
HSL	243° · 100% · 88%
CMYK	23 · 24 · 0 · 0

Reserved for **italic serif phrases** (Instrument Serif). Carries warmth into otherwise clinical type. Never used for solid fills.

PRIMARY · SURFACE

Deep Navy

HEX	#0F0E1A
RGB	15 · 14 · 26
HSL	243° · 30% · 8%
CMYK	42 · 46 · 0 · 90

SURFACE · CARD

Card Navy

HEX	#1A1830
RGB	26 · 24 · 48
HSL	245° · 33% · 14%
CMYK	46 · 50 · 0 · 81

The **master surface**. Every slide, every background, the default canvas. On lavender fills, it becomes the text colour.

Lifted card surface — competitor tiles, traction stats, business-model cards. Always sits on the deep navy.

SURFACE · ALT

TYPE · PRIMARY

Plate Navy

HEX	#15142A
RGB	21 · 20 · 42
HSL	243° · 35% · 12%
CMYK	50 · 52 · 0 · 84

A halfway plate between the master surface and a card — used for the close-slide poster panel and signature gradients.

Body White

HEX	#FFFFFF
RGB	255 · 255 · 255
HSL	0° · 0% · 100%
CMYK	0 · 0 · 0 · 0

Primary type colour for all paragraph and statement text on navy. Reserved for content, never used as a surface.

TYPE · SECONDARY

TYPE · TERTIARY

Soft White

USE	rgba(255,255,255,0.74)
HEX	≈ #BCBCC4
ROLE	Body copy

All long-form body text. Reduces visual weight against the navy without breaking contrast.

Whisper White

USE	rgba(255,255,255,0.48)
HEX	≈ #7F7F89
ROLE	Eyebrows · captions

For supportive labels — eyebrows, axis text, "stage 1 / 2 / 3" tags. Never used for any sentence longer than a phrase.

DIVIDER · HAIRLINE

Hairline

USE	<code>rgba(255,255,255,0.14)</code>
HEX	<code>≈ #34343D</code>
ROLE	Section dividers

Every divider, card border, table separator on navy. Soft enough to imply structure without competing with the type.

USE LAVENDER FOR

Earned emphasis.

- ✓ One headline or italic phrase per slide
- ✓ The hero number on a stat card
- ✓ The one row in a table that's "us"
- ✓ Primary CTAs and the brand glyph

DON'T USE LAVENDER FOR

Decoration.

- × Every header on the slide — pick one
- × Long paragraphs of body text
- × Gradients, drop-shadows or neon glows
- × Backgrounds larger than ¼ of the slide, except on hero panels

02 · TYPE

The *pairing.*

A single, confident pairing — a modern grotesk doing the heavy lifting, a serif italic carrying the moments of warmth. Two families. No others.

PRIMARY · 95% OF ALL TYPE

Manrope

Aa 01.

A modern variable grotesk by **Mikhail Sharanda**. Designed for screens, optical centre is steady at large display sizes, numerals are tabular. Open-source via Google Fonts.

400 Regular

500 Medium

600 SemiBold

700 Bold

800 ExtraBold

ACCENT · ITALIC PHRASES ONLY

Instrument

Serif

Aa &

A bookish, slightly literary serif by **Instrument**. Used *only* in italic, only for phrases ("And it's getting worse."; "One child. One session. One layer."). Never set in roman.

400 Regular Italic

DISPLAY	80–96px	MANROPE 800	The math has never worked.
H1	52–76px	MANROPE 800	Five layers. None copyable.
H2 · CARD	28–40px	MANROPE 800	The therapist stays in the loop.
ITALIC ACCENT	36–96px	INSTRUMENT SERIF 400 ITALIC	<i>And it's getting worse.</i>
BODY	17–26px	MANROPE 500	Continuously tracked, session by session.
EYEBROW	12–22px	MANROPE 800 · 0.22EM	THE PROBLEM · INDIA 2026

03 · LOGO

The *lockup.*

A lavender mark and a single-line wordmark. Read together; never apart. Two surface lockups — dark and light — that cover every real-world placement.

PRIMARY LOCKUP · ON DEEP NAVY ·
MANROPE 800, LETTER-SPACING
- 0.018EM

LIGHT LOCKUP · ON WHITE
— ACCENT SHIFTS TO
#6260D6 FOR CONTRAST

✓ CLEAR SPACE

Maintain at least **1× glyph height** of empty space on every side of the lockup. Always.

✓ MINIMUM SIZE

Glyph never smaller than **24×24px** on screen, **10mm** in print. Wordmark scales with it.

× NEVER RECOLOUR

The glyph is lavender on navy, navy-accent on white. No gradients, no other colours, no inverted lockups.

× NEVER STRETCH

Lock the proportions. Don't condense, expand, or place the word above the glyph.

04 ·

TOKENS

Drop-in *tokens*.

Names and values used across the deck. Paste these into any Figma library, Tailwind config, or product codebase and the system is intact.

TOKEN	VALUE	USE
 <code>--indigo</code>	<code>#BBBAFF</code>	Primary lavender accent (bold)
 <code>--indigo-2</code>	<code>#C5C2FF</code>	Soft lavender — Instrument Serif italics only
 <code>--indigo-100</code>	<code>rgba(187,186,255,0.20)</code>	Tinted lavender hover / soft fills
 <code>--indigo-50</code>	<code>rgba(187,186,255,0.10)</code>	Tinted lavender background washes
 <code>--bg</code>	<code>#0F0E1A</code>	Master surface (deep navy)
 <code>--bg-cream</code>	<code>#15142A</code>	Plate surface — close-slide poster panels
 <code>--bg-soft</code>	<code>#1A1830</code>	Card surface lifted off the master
 <code>--ink</code>	<code>#FFFFFF</code>	Primary type
 <code>--ink-2</code>	<code>rgba(255,255,255,0.74)</code>	Secondary body type
 <code>--ink-3</code>	<code>rgba(255,255,255,0.48)</code>	Tertiary captions and eyebrows
 <code>--line</code>	<code>rgba(255,255,255,0.14)</code>	Section dividers and card borders
 <code>--line-2</code>	<code>rgba(255,255,255,0.07)</code>	Internal hairline rules
 <code>--on-accent</code>	<code>#0F0E1A</code>	Text colour when set on a lavender fill

05 · SYSTEM
IN USE

How it *looks at rest.*

The kit running on a dark slide and a light web surface. Same accent, same type, two different ground states.

PITCH · SLIDE

Centers today. *Homes tomorrow.*

Make every existing therapist 3–4× more effective, then extend that effectiveness into every Indian home.

[View the case →](#)

WEB · MARKETING

The therapy works. *The delivery is broken.*

A precision delivery layer for developmental therapy in India — built around the therapist, designed for measurable outcomes.
